

HEAT

THAT WAS WOW  
OKAY GOOD

HELLO

# WHAT NOW

1.

## shipping

A term used to describe fan fictions that take previously created characters and put them as a pair. It usually refers to romantic relationships, but it can refer platonic ones as well. (Just think of "shipping" as short for "relationSHIP".)

*It generally uses the initials of the characters shipped or a combination of the names, though this is not a rule.*
